Summary

(summary)

Statement of need

(statement of need)

Methods

MPDD Database

(about MPDD)

Predictive Modeling Pipeline

(about the pySIPFENN, MPDD-ALIGNN, and other models)

(schematic of crystALL software)

Compound-Based Structure Prediction

(about the structure prediction)

(compound figure)

Composition-Based Structure Prediction

(uncertainty in compound composition extends the previous method)

Acknowledgements

- (a loooot of grants over 5 years: NSF superalloys, PSU Seed, all from Nd-Bi study, DOE ARPA-E, NSF-POSE, ONR FGM)
- All Phases Research Lab members who tested the software in production
- All Phases Research Lab members who provided feedback on the software
